

QUALITY POLICY

.....At SKN Electronics quality is a given

SKN Electronics is one of the UK's leading contract electronics manufacturers. Operating from our state-of-the art 13,000 square foot, purpose-built facility in Birmingham we work within a diverse range of industry sectors; from traffic systems to specialist life critical medical equipment where we offer services from Surface Mount Assembly to ATE and AOI Testing.

At SKN Electronics we believe quality is a given and we have established a reputation for a prompt and effective service, consistently meeting and exceeding customer requirements.

We firmly believe that quality improvement is the responsibility of every SKN employee.

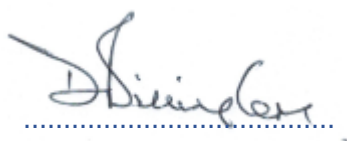

Core company values include:

- ***Rapid response to meet customer's requirements***
- ***Experienced and knowledgeable staff***
- ***Quality assurance at all stages of the process***
- ***Continued investment in new technology***
- ***Staff development and training***

Quality objectives are defined and monitored within the company and regularly reviewed to identify opportunities for continual improvement.

Certification to the internationally recognised standard for Quality Management (ISO9001:2015) is central to the way that the company does business.

We will work to continually improve the company performance and associated management system to satisfy and delight our customers. The systems defined have my active full support. They are under continual review and improvement, however once defined are mandatory for all personnel.

David Billingham
Operations Director
